

Keeps food juicy and hydrated

The 600 TwinTech® No Frost Fridge Freezer, keeps food juicy and hydrated. Its dual cooling system maintains the ideal humidity and keeps food from drying out. It also ensures you never have to defrost the freezer.

Product Benefits & Features

TwinTech No Frost: Protects produce, prevents ice build-up

The dual cooling system of TwinTech® No Frost offers separate air circulation between fridge and freezer. This keeps the right humidity level in the fridge to help keep food from drying out while preventing ice build-up in the freezer.

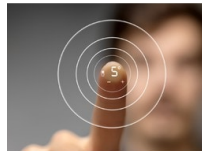

Prevent dry or accidentally frozen food with Multiflow

Food is kept at its best with MultiFlow, which maintains stable temperature and humidity throughout your fridge, protecting ingredients from drying out – or freezing against the back wall. Food stays delicious, until your next shop.

Sleek, elegant, Flat Door design

The fridge's premium looks will complement the modern kitchen perfectly. Its clean lines and completely flat design means it will sit flush against your other kitchen appliances and worktops. And the pocket handles are hidden from view at the bottom of the door, to finish off the elegant aesthetic.

Effortless control with Touch Electronic Controls

Touch Electronic Controls provide easy access to the fridge's settings and functions, so you can manage the temperature depending on your needs. Ultimate control at your fingertips.

- Automatic defrosting of the freezer compartment
- Automatic defrosting of the cooling compartment
- MultiFlow
- Action Cool function quickly assures the desired refrigeration temperature
- Fast freeze function with automatic return to normal
- Freezer drawers: 2 Full Width+1 Half Depth, Transparent Plastic
- Separate controls for freezing and cooling compartment
- Refrigerator lighting: Top Panel. Led

Product Specification
