

**Elevate everyday cooking with ease, safety, and performance**

CookWell Essentials range for all hobs is made from durable stainless steel. Glass lids with steam vent and integrated colander allow easy monitoring and draining, and efficient steam control in your cooking and your kitchen.

Product Benefits & Features**Versatile cookware essentials**

3-Piece Pot Set from the CookWell Essentials range includes one saucepan (1.4L) and two double-handled pots (2.8L, 5.1L). The thick, stable base ensures efficient heat distribution and even cooking.

Drain hot liquids easily and safely

An integrated colander in the lid and a handle grip make pot draining safe and easy. There's no need for a separate colander when draining pasta or boiled vegetables. Simply tip hot liquids from the pot into the sink.

Clearer cooking and a cleaner cooktop

Clearly monitor your cooking without lifting the glass lid, to maintain consistent heat, retain moisture, and avoid messy splattering. The vent allows steam to exit and efficiently channel toward extractor hobs.

Handles the heat on every hob

Whether you cook with induction, radiant, or gas, these pots are designed to be used on all hob types. They are also oven safe up to 250°C (glass lids up to 200°C).

Product Specification

Product Sub Typology	Pots and pans
Product Typology	Containers to cook/bake/freeze
Height, mm	115
Width, mm	240
Depth, mm	240
Content	1 L bottle
Product Number Code	902 986 687
Bar code	7333394096452
Part Code	9029866879
