

Cook up to twice as fast with two kinds of heating

The 800 MealAssist Combiquick® Oven combines heating and microwave functions for delicious results up to twice as fast. The CookSmart Touch display guides your everyday cooking, plus helps you create memorable meals for special occasions.

Product Benefits & Features

Combine microwave and oven functions to cook up to twice as fast

Combined microwave and convection oven for delicious food in as little as half the time. The microwave function efficiently re-heats, cooks and defrosts your dish. The convection system's fan circulates hot air to evenly cook your dish.

Easily create tastier meals with guidance from CookSmart Touch

Make everyday cooking easier and try new techniques with confidence. CookSmart Touch guides you every step of the way and can help save energy through smarter pre-heating and residual heat use*. Access favourite dishes at a touch, and add new features over time with over-the-air updates**.

*Energy saving compared to previous ovens without CookSmart Touch. **Over-the-air updates require the Electrolux app, an account, oven registration and Wi-Fi connection.

Automatic settings, consistent results with Assisted Cooking

Get intuitive access to the best settings for preparing many different dishes via the Assisted Cooking function. Choose whether to let the oven adjust automatically or fully control the time and temperature yourself.

Let the new Food Sensor take out guesswork for better results.

Delicious dishes every time. The new Food Sensor automatically monitors temperature and tells you when the food is ready.

Sophisticated, minimalist, matt black design

Experience a new level of aesthetic performance with Matte Black Design, a sleek, sophisticated finish. Contrasting matt and glossy glass surfaces meet dark tint and polished edges. Anti-fingerprint matt texture for less cleanup.

- Oven with integrated microwave function
- Oven with Connectivity
- Touch control
- Soft Closing
- Food sensor with auto switch off-function and residual time indication
- Fast oven heat up function
- Electronic temperature regulation
- VarioGuide
- Automatic temperature proposal
- Residual heat indication
- FloodLight™
- Cooling fan
- Child Lock safety function for control panel
- Accessories included: 1 Cake tray grey enamel, 1 Dripping pan grey enamel, 1 Wire shelf chromed
- Multilingual oven display
