

Cooling that adapts to you

The 7000 AI CoolAssist® Refrigerator intuitively adapts to your lifestyle whether you're adding groceries or away on holiday. The refrigerator maintains a stable environment for optimal food protection.

Product Benefits & Features

AI CoolAssist® – advanced cooling that adapts to you

AI CoolAssist® intuitively adapts fridge settings to your daily routine - whether adding groceries or leaving for vacation. AI CoolAssist® learns your habits to optimize cooling temperature, and, during low-use times, can save up to 15% energy.*

Every shelf evenly chilled. With DynamicAir

DynamicAir maintains a constant airflow to guarantee a stable temperature throughout the refrigerator. Every shelf evenly chilled to preventing warm zones. Prohibiting bacteria growth. Preserving fresh ingredients.

*Internal test on representative models at 25°C, comparing AI CoolAssist enabled with Auto Vacation Mode after 3 days of inactivity against factory default settings. Actual savings may vary by model, ambient temperature, usage and operating conditions.

Freezer space. In the fridge. Four star compartment

Freeze food safely even in the fridge. The four-star freezer compartment allows you to safely freeze your fresh food down to -18°C, even inside the fridge. Ideal for efficient freezing of smaller amounts of food or convenience meals.

Big Pull-Out Drawer: Spacious enough for unconstrained access

The Big Pull-Out Drawer slides all the way out for convenient, unconstrained access to all items. It's spacious capacity enables optimal storage and organization of bulky items. Ideal for chilling large bottles.

Audible Door Alarm

The Door Alarm alerts you if your appliance door is left open for certain amount of time, so you can close it promptly.
