Highlights

One touch café level variety

From rich espresso to cappuccino and refreshing iced coffees, choose your favourite from a preset menu of 25 drinks. There's something for every mood.

Fine-tune coffee to your taste

Tailor every coffee cup to your taste with guided controls: fine-tune the grind to optimize bean extraction, adjust the strength across 7 intensity levels, and set the temperature and cup size for your ideal drink. Bean Adjust technology optimizes the brewing process to match your chosen beans, helping unlock their full flavor and aroma in every cup. Save your favorites across 8 profiles.

Easy cleaning LatteGo Pro

LatteGo Pro creates velvety milk foam even with plant-based milk alternatives, for café-quality lattes and macchiatos, all in one touch and no-hassle maintenance. Our fastest to clean milk system ever** can be cleaned in 10 seconds***

Barista-level intensity

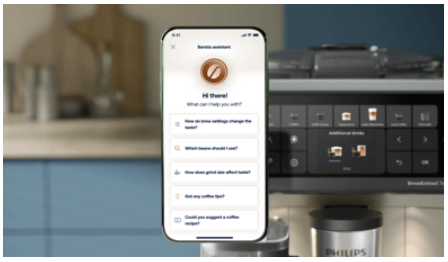

Our BrewExtract Technology doses and presses up to 40% more beans * to create an uncompromised and consistent café-like taste. Tested by Italian Experts.

Full aroma from fresh beans

Add your favorite beans and experience café-quality coffee, freshly ground cup after cup. Our integrated ceramic grinder with 12 settings preserves the beans' aroma and flavor while ensuring a precise grind tailored to each brew.

One Touch Control for Easy use

Brew your coffee exactly the way you like it thanks to the intuitive TFT-display and instantly accessible drinks menu. Your Barista Assistant in HomeID companion app will make it easier to master your machine and enjoy exceptional coffee every day with personalized guidance, smart tips and support.

Quick and easy to clean system

Enjoy your coffee moment without the cleaning hassle. Café Aromis with LatteGo Pro is designed for easy cleaning, featuring automatic rinse cycles, a removable brew unit that rinses clean under the tap with no grease needed, and a LatteGo Pro milk system with only two dishwasher-safe parts for fast assembly and effortless cleaning.

40% quieter****

Our patented SilentBrew technology reduces machine noise by shielding the grinder, resulting in 40% less noise than previous Philips fully automatic coffee machines without silentbrew.

Brew your coffee immediately

With the QuickStart function, you can power on your machine in 3 seconds and brew your coffee immediately.
